To End Gretna Marriages.

New Orleans, La., March 20.—Acting on the recommendation of a committee appointed to investigate the subject, the Era Club, a woman's organization of this city, decided at a meeting today to launch a campaign to abolish the notorious Gretna marriages. For many years Gretna, which is across the river from New Orleans has been the mecca of all persons in

this vicinity desiring a speedy wedding. Marrying justices were conveniently at hand when the ferry-boat from New Orleans arrived, ready to tie the knot without loss of time and with few questions asked. The investigations of the club women convinced them that the great majority of the Gretna marriages resulted in misery and unhappiness, hence they have decided to use their best efforts to put an end to the custom.

FAMILY ARRESTED FOR GIGANTIC FRAUD

New Orleans, La., March 19.—Charged with defrauding banks in this country and Europe of approximately a million dollars through alleged manipulation of invoices, Antonio Musica, his three sons, George, Arthur and Philip Musica, New York hair dealers, were arrested in their apartments on the steamer Heredia this morning. Two daughters of the elder Musica, Louis and Grace were also detained. The party was taken into custody before the departure of the Heredia for Colon.

When searched at headquarters a large amount of money and negotiable paper was found in the possession of the prisoners. Fifty thousand dollars was secured from Arthur Musica and about \$30,000 more from other members of the party.

The Musicas carried with them nine packages of baggage, which the police hauled to headquarters. It is believed much more money will be found when their trunks are opened by the police later in the day.

The party will be taken back to New York at once.

The Musicas did not appear to be perturbed over their arrest. Affidavits were sworn out charging the father and three sons with being fugitives from justice and the two daughters with being material witnesses.

On the way to the central police station an incident occurred which caused some excitement. The elder Musica attempted to secure from Philip a revolver which the son had in his pocket.

NEW KING WILL TAKE OATH FRIDAY

Athens, March 19.—Constantine will take the oath as King of the Hellenes on Friday. He will arrive at Athens tomorrow.

The hope is expressed that the King will be proclaiming as Constantine XII., the last Byzantine Emperor having been Constantine XI.

The Chamber of Deputies will be summoned tomorrow to take the oath of fealty to the new King, after which the Ministry will resign.

Messages of condolence and sympathy for the royal family, the Greek government and the Greek Nation poured into the capital all day. The first message from the head of a Nation received by Queen Olga came from President Wilson.

All Greece mourns the death of a sovereign who had done so much particularly during the past year, to advance the prestige of the Nation. Emblems of sorrow are displayed on all sides and manifestations of grief are even more marked among the poor and lowly than among those of the higher classes.

ANOTHER EXAMPLE OF DIVERSIFICATION

As an example of practical diversification, P. A. Norris has just sold two car loads of steers, 46 head in all, which netted a handsome profit on their feed. He bought the bunch at an average price of \$58.12, fed them a ration of five pounds of cotton seed meal and thirty pounds of hulls for a period of fifty days, made them weigh an average of 1130 pounds per

head, and sold the lot at Oklahoma City at a net price of \$86.52 per head, or \$7.85 per 100. Others can do as well even on a small scale.

Mr. Norris is a strong advocate of planting bermuda grass liberally on all ground not suited for profitable farming and making it yield feed for cattle which can thus be raised at a low cost, fattened and sold at a good profit. He has succeeded well in his undertaking to interest the farmers in better seed and improved methods of farming and is now evidently branching out along another line.

THREE STATES NEEDED TO RATIFY AMENDMENT

Washington, March 20.—With the ratification of only three states remaining to insure the adoption of a constitutional amendment for the direct election of senators, speculation was heard at the capital today in regard to the effect of the adoption of the amendment upon the senatorial contests in Illinois.

Consensus of opinion was that the ratification of the amendment by three more states, and the subsequent proclamation by the secretary of state that the amendment had been adopted, would deprive the Illinois legislature of power to elect senators. The selection would then be made under terms of the new amendment. This requires that when vacancies occur, such as exist in Illinois, the governor of the state shall issue writs for an election at the polls to fill such vacancies. It is provided, however, that the legislature may empower the governor to make temporary appointments until the people fill the vacancies by election.

Senator Kern, chairman of the senate committee on privileges and elections, was one who held this general opinion.

The weapon was taken away from him after a desperate struggle with one of the detectives escorting the party.

Eighteen thousand dollars in bills of large denomination was found hidden in Miss Grace Musica's corset. Eighty thousand dollars was recovered from Musica and his three sons.

Antonio Musica attributed his firm's embarrassment to the failure of three large foreign hair concerns. He said his company owed these companies approximately \$300,000, and when pressed for a settlement he with his family left New York for Panama. He denied having received any money on fraudulent invoices and bills of lading.

army, King Constantine, from the fortress of Janina, promised that he would ever concentrate all his efforts to his land and sea forces to which war had indissolubly bound him.

Queen Olga, accompanied by several members of the royal family, is now on her way to Saloniki. She suffered greatly from the shock of the announcement of the King's death, but before her departure showed that resolution which had actuated her early in the war, in going to the field to care for the wounded.

The Council of Ministers issued its official statement early today upon the assassination of King George yesterday.

It reads: "Overwhelmed with grief, the Council of Ministers announces to the people the death of His Beloved Majesty, King George, at the hand of criminals. A madman assassinated the King at Saloniki, throwing the whole nation into deep mourning in these days of rejoicing at the accomplishment of our National desires. The outrage was committed at 5 o'clock yesterday afternoon while His Majesty was out walking. The weapon used was a revolver. The council hastens to communicate the sad news to His Majesty, King Constantine."

'Tis Never Too Late to Mend.

Hillsboro, Texas, March 20.—Heirs of the late Judge Abbott of this place were advised today that the estate had been increased unexpectedly by \$15.50. While Judge Abbott was a member of the house of representatives, many years ago, he lost a pocketbook containing fifteen dollars in bills and fifty cents in postage stamps. Recently a negro, at that time a janitor in the house of representatives, returned the pocketbook and the \$15.50, explaining that he had found the money at the time of the loss and the fact that he had failed to return it to the owner had been on his conscience ever since. The amount was formally turned over the heirs of Judge Abbott at their annual business meeting today.

KING GEORGE OF GREECE.
The assassination of King George of Greece removes from Europe one of its most interesting rulers. By a strange coincidence it was fifty years to a day from the time of his election to the throne until his death. Only the Emperor Franz Joseph of Austria had reigned longer than he. The king was not a Greek by birth. Indeed when he was born it appeared that he would live and die as a very obscure and almost unknown prince. However, the wheel of fortune so turned that he became a king before his father ascended the throne of Denmark. When his father occupied the throne of Denmark a sister was the wife of the Tsar of Russia and another sister was married to the Prince of Wales, who later became King Edward VII. of England. Later his elder brother became king of Denmark and the second son of this brother was chosen king of Norway. Only a year ago death removed his brother from the throne of Denmark and a few years prior to that King Edward had died on the throne of Great Britain. Thus at the time of his death King George could count among his royal nephews the kings of England, Denmark and Norway and the Tsar of Russia, and his eldest son was married to the sister of the

You Marvel How Worst Skin Eruptions Disappear as Result of Famous Remedy.

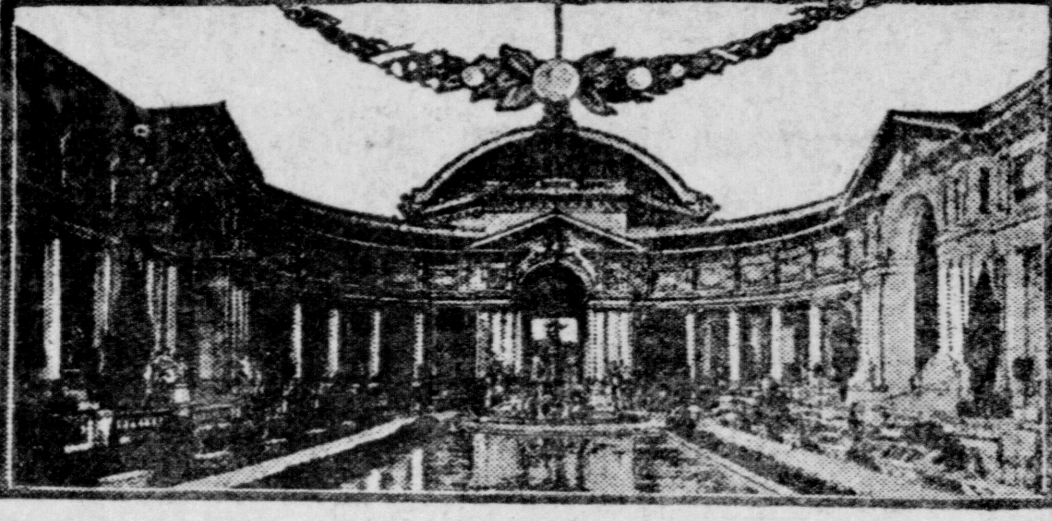

If you have been fighting some blood trouble, some eruptive skin disease, call it eczema, lupus, psoriasis, malaria, scurvy or what you will, there is but one sure, safe way to cure it. Ask at any drug store for a \$1.00 bottle of S. S. S. and you are then on the road to health. The action of this remarkable remedy is just as direct, just as positive, just as certain in its influence as that the sun rises in the east. It is one of those rare medical forces which act in the blood with the same degree of certainty that is found in all natural tendencies. The manner in which it dominates and controls the mysterious transference of rich, red, pure arterial blood for the diseased venous blood is marvelous.

Out through every skin pore acids, germs and other blood impurities are forced in the form of invisible vapor. The lungs breathe it out, the liver is stimulated to consume a great proportion of impurities, the stomach and intestines cease to convey into the blood stream the catarrhal, malarial germs; the bowels, kidneys, bladder and all excretories of the body are marshalled into a fighting force to expel every vestige of eruptive disease.

There is scarcely a community anywhere but what has its living example of the wonderful curative effects of S. S. S. Get a bottle of this famous remedy to-day, and if your case is stubborn or peculiar write to The Swift Specific Co., 137 Swift Bldg., Atlanta, Ga. Copyright, 1912, by Panama-Pacific International Exposition

ONE of the minor courts that will open out from the great exposition city upon a vast tropical garden upon the south. This court, a marvel of tropical transplanting, is south of the Court of Four Seasons. It is designed by Mr. George W. Kelham. The Panama-Pacific International Exposition will stand alone not only in its architectural treatment but in its setting at Harbor View, the exposition site, in the adornment of its huge interior courts and of its grounds, with hundreds of thousands of palms, flowers and rare shrubs and vines, and in the superb color plan created by Jules Guerin, world famous colorist. The theme of the exposition, the sculpture, and mural paintings will exalt the spirit of achievement through which America has completed the Panama canal. The theme of the great interior courts will suggest the meeting of the East and West.

DAGGS TRIAL NEARING END

EVIDENCE ALL IN AT 2 O'CLOCK.
CASE BEING ARGUED BY ATTORNEYS.

The Daggs murder trial has entered its final stages, and will probably be given to the jury Friday morning. All the evidence was in by 11:30 this morning, except that of Hershell Cope, who had disappeared shortly after the killing of Mrs. Harrison, and on whose account the defense unsuccessfully sought a continuance at the beginning of the trial. He was located in Kansas and returned this morning with Constable J. H. Payne, who located him in Kansas and persuaded him to return. His testimony was to the effect that Regers did the shooting, but admitted that shortly after the killing he had told the father of the deceased that he did not know who fired the fatal shot.

The court's charge was read shortly after 2 o'clock and covered every phase of the case. J. W. Dean then opened the argument for the state.

C. W. Chisler, who was called here by the death of his mother, returned to Wichita, Kansas, this afternoon.

THE STATE BANK OF HUGO CLOSES DOORS

Fort Smith, Ark., March 20.—The Oklahoma State bank of Hugo failed to open its doors Wednesday. For a week state bank examiners have been investigating the books of the institution. The bank's last financial report, issued February 4, showed it carried \$41,638.09 in deposits with \$45,296.96 in loans and discounts.

A deal was arranged Wednesday afternoon to liquidate through the First National bank but this was later abandoned. As the deposits are protected by the state guaranty the depositors will not lose. None of the officials of the bank would volunteer an explanation as to the cause of the failure.

Guaranty Fund Safe.

That there will be no loss to the bank guaranty fund of the state through the closing of the Oklahoma State bank of Hugo, was the statement Wednesday night of local bank department officials who took charge of the bank. The First State bank of Hugo took over the deposits and liabilities. The capital stock of the bank was \$25,000. Some had assets and the fact that the town had too many banks are given as reasons for the closing of the doors. U. G. Phippen was president of the defunct institution.

Economical Ironing

To iron economically you must not waste heat. Ironing with ordinary flat irons is very wasteful of heat; most of the heat goes up the kitchen chimney; a lot of it is wasted in charring the ironing pad and in scorching the clothes. Ironing with a

G-E ELECTRIC FLAT IRON

is quite different—all the heat is in the iron ready to go into the pieces ironed instead of going into the room or up the kitchen chimney. None of it is wasted.

To use only the amount of heat actually needed for ironing, be it either heavy damp pieces or laces, embroidery or other light goods is really economy.

That's why G-E irons are used in thousands of homes throughout the country.

SAGE TEA WILL DARKEN THE HAIR

Restore Faded and Gray Hair to Natural Color—Dandruff Quickly Removed.

There is nothing new about the idea of using sage for restoring color of the hair. Our grandmothers kept their hair dark, glossy and abundant by the use of a simple "Sage Tea." Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a brew of sage leaves and applied it to their hair with wonderfully beneficial results.

Nowadays we don't have to resort to the old-time tiresome method of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves; and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing Sage in the proper strength, with the addition of Sulphur, another old-time scalp remedy.

This preparation gives youthful color and beauty to the hair, and is one of the best remedies you can use for dandruff, dry, feverish, itching scalp, and falling hair. Get a fifty-cent bottle from your druggist today, and you will be surprised at the quick results. All druggists sell it, under guarantee that the money will be returned if the remedy is not exactly as represented. Agents, Gwin & Mays Drug Co., Ada, Okla.—adv.

SPECIAL SESSION GETS DOWN TO BUSINESS

Oklahoma City, Ok., March 19.—Members of the legislature have been pressing the Governor to open the entire range of legislation by a special message to the special session and allow it to embrace all of these subjects embodied in bills of a general character which expired with the regular session. The Governor indicated he was disposed to allow a liberal scope of operation, but would sit on the lid so the session might be abbreviated as much as possible. Another message will be sent in by Monday, opening other subjects for consideration.

An avalanche of bills touching subjects of the general message of yesterday hit the House, and in the Senate one or two got in, covering subjects which have not been submitted. This brought before the senate the question of how the rule is to be applied to this order of business. It was related that during the Haskell administration, the legislature was held strictly to the constitutional rule, giving the executive first say as to whether a subject should be legislated upon at a special session. Senator Wilson regretted the fact, he said, that the members permitted certain general bills to be sidetracked during the regular session to allow consideration of local measures. He understood then that pending general matters would be the order for the special session.

Senator Barrett reminded the members that if they had a bill they deemed meritorious they could "lope up to the Governor's office" and try to convince him of the law's necessity. "The then Governor," said Senator Barrett, speaking of the rule observed during the Haskell administration, "was the greatest opportunist since the days of Napoleon. When he needed a vote he would send for a member having a pet bill—a perfectly practical, particular proposition—and the result was the Governor got right with a message and the member got right with his vote."

"I do not know whether the present Governor is such an opportunist. I want to compliment Gov. Cruce in spirit and broad-mindedness of his message. He indicates he wants all meritorious measures of general application acted upon."

The senate agreed to leave the matter of bill introductions to the members, and if they do not come within the constitutional rule they probably will go out on a point of order.

der. In the House the speaker is to determine that question.

In the senate, Senator Russell offered his joint resolution calling for distribution of the school taxes collected from public service corporations to all counties of the state in place of confining it to the county of payment. This is the fifth time the subject has been before an Oklahoma Legislature. In the closing hours of the regular session the resolution was amended in the House, then killed on final roll call.

Senator Tucker offered a joint resolution amending the Constitution so state aid might be extended to those school districts which, upon a 5-mill ad valorem levy, can not maintain as much as five months' school per year.

These appropriation bills were offered with Senate and House members as joint authors: Fifty-four thousand dollars each year for School for the Deaf at Sulphur, \$70,000 for Vinva Asylum, \$72,220 for Ada Normal, \$49,000 for each year for Alva Normal, \$72,200 for Oklahoma College for Women, \$89,540 for the Granite Reformatory for two years, \$63,000 for the Edmond Normal, \$22,355 for each year for branch Preparatory School at Claremore, \$1,223 deficiency for same institution, \$33,450 each year for Tonkawa.

Brothers in Shadow of Gallows.

Salem, Ore., March 20.—Charles and George Humphreys, confessed murderers of Mrs. Eliza Griffith at her home near Psilomath two years ago, are to be hanged at the state penitentiary here tomorrow. The two men were convicted at Corvallis a year ago and sentenced to hang December 13, the same day on which five others were executed at the state prison. An appeal to the supreme court prevented their execution on the day set.

AWAKENS AFTER FOUR YEARS

Remembers but Little of Events That Transpired in Wanderings Around Country.

Los Angeles, Cal.—Attired in the height of fashion, carrying a new dress suit case in one hand and with the other waving a gay farewell to friends who had gathered at the Erie train in New York in June, 1908, to see him depart for Phoenix, was the last remembrance of Albert J. Ryan, who awakened on the sands two miles below Oceanside, dressed in a torn and much patched suit of clothes.

He had been the victim of a four-year attack of aphasia, if the story which he related to Central station detectives proves true.

In the interim, according to bits of information which Ryan says he has picked up concerning himself since Sunday, he traveled from the Atlantic to the Pacific ocean, sent back to New York city for Miss Mary Flood, his sweetheart, to join him in California, married her somewhere in the state, became a father and worked for several years in this city and San Diego. Yet he has no recollection of any of these events.

Central station office detectives say it is one of the most remarkable cases of aphasia that has ever been brought to their attention. There is no charge against Ryan for deserting his wife and child, living at San Diego.

He was cross-questioned at considerable length by detectives, but could not be shaken in any of his statements, some of which later were verified. He was identified by half a dozen men who knew him here and in San Diego before his return of memory. Ryan told the detectives that when he left New York he was employed as a hall boy at the Manhattan club, and that W. E. Guerin and General Burbank, millionaire members of the club, had given him money to go to Phoenix, as they thought he had tuberculosis.

KNEW DOG, NOT OWN NAME

First Tears, Then Candy and Finally Mamma Came to Boy Lost in New York.

New York.—A little yellow dog, tugging at a chain to which a little boy clung, went through 100th street and stopped at Second avenue.

On reaching the corner the boy began to sob and the little yellow dog to bark and whine. Patrolman Murphy came along. The boy was too shaken with sobs to ask, and the little yellow dog snapped at the patrolman's legs and growled.

Murphy took boy and dog under his arms and carried them to the East 104th street police station. There the boy couldn't recall his name and address, but he knew his dog was "Puppy," and he wouldn't part from him.

The two were fed with sweets and delicacies and then placed on a chair behind the desk of Lieut. Shevlin. The dog in his young master's lap. They remained until 9 o'clock. When a woman ran into the station house and said her four-year-old son, Nathan Klein, was missing from his home, 217 East 100th street. The youngster behind the desk was her lost boy.

RAID ONLY LAWYER'S JOKE

Crowd Waited for Judge, Lawyer and Store Proprietor to Be Arrested in New York.

New York.—"There's going to be a judge, a lawyer, a department store proprietor and a few others arrested for obtaining money by fraud, under false pretenses," was the tip that was passed out with the further information that the arrest would be preceded by a raid which would be made at eleven o'clock at 652 West End avenue.

The house is that of Samuel J. Goldsmith, an attorney. At eleven o'clock, while the street was filled by reporters, the raid was made. The judge, lawyer and others were dumfounded when a door to the room in which they were pushed open. Three men, one in the uniform of a policeman and the other two who said they were central office men, exclaimed: "The house is pinched."

Then Goldsmith informed his friends, after he had pulled them back in through the windows, that it was all a joke, but eleven o'clock hereafter was the hour for breaking up the card game.

FORCED TO KNEEL AT OVEN

Robbers Ransack House While St. Louis Woman is Kept Under Cover of Revolver.

St. Louis, Mo.—As Mrs. W. C. Rollman was kneeling at the oven of her range, putting the finishing touches on a turkey, two negroes entered the kitchen and, at the rattle of a revolver, forced her to remain half an hour on her knees before the hot oven while one of the intruders ransacked the house, obtaining \$15.

Mrs. Rollman's four-year-old son, who was watching closely the operations on the turkey, was forced to kneel beside his mother.

The robbers did not molest the turkey. Two suspects were arrested.

Burro Robs Hens' Nests. Gilcrest, Colo.—Napoleon, a young burro, owned by Edward Mapes, has been proved a robber of hens' nests. Its second visit to the same henhouse resulted in its downfall. The owner lay in wait and discovered the burro was the offender and was eating eggs, first smashing them with a hoof.

FEE AMUSES MAYOR GAYNOR

Executive of New York City Sympathizes With Young Man Married by Alderman.

New York.—Mayor Gaynor sent this reply to a letter he had received from Kal Broderse of 200 Fifth avenue, complaining that an alderman who married him had charged \$20 for the service:

"I have received your letter complaining that an alderman on marrying you the day before at his house demanded \$20 of you as his fee, and that you paid him, for the reason that it would have mortified you too much to make a protest in the presence of your bride and other ladies who were present. Of course the alderman committed a great outrage and he no doubt knew that you would pay him sooner than dispute with him openly. He had no right to charge you anything. I receive many letters of a similar kind. My advice to you all is to go to clergymen to be married, and then you will be treated properly. I do not mean to say that all of the aldermen would treat you as this alderman did, but unfortunately some of them would. You say it was all the money you had with you, and that you expected to use it for immediate expenses with your bride. I certainly sympathize with you. If some one had held you up on the street and taken it away from you it would not have been worse. You may sue the alderman to get your money back, but if you do he will no doubt say you made him a voluntary present of the \$20, and—who knows?—the judge may believe him."

It was said at the office of the mayor that the alderman referred to was Ald. James J. Smith, who represents one of the downtown districts. When a copy of the mayor's letter was shown to Mr. Smith, he said: "I don't remember this man. Perhaps I married him and perhaps I didn't. I marry thousands of persons every year and I can't keep them all in mind. Anyway, I never asked any one for a \$20 fee."

HAS COWCATCHER FOR AUTOS

Instead of Catching Animals It Rescues Persons While Traveling at High Speed.

London.—An inventive genius has been giving demonstrations in Regent's park with a contrivance, fitted to the front of an automobile, which appears to be an elaboration of the cowcatcher on locomotives, but with the essential difference that it is intended to safeguard the unwary pedestrian, no matter if he happens to get in the way of a car traveling at 20 miles an hour.

The apparatus consists of a bar between the front wheels, covering the entire front of the car, and as soon as this strikes a pedestrian it springs back and a scissors shaped jaw grasps the person struck, under the knees, forces him to sit down in a net, and holds him until released.

A member of the Motor club thus describes what he saw of the test:

"I was walking along the path with a chauffeur, when the man suddenly left me and started to run across the road. A short distance away a motor car was coming along the road at a speed of at least 20 miles an hour. The car dashed straight into the man, but, instead of knocking him senseless, picked him up and carried him ten or fifteen yards until the car stopped. I ran forward, and when I reached the man he was sitting in the apparatus laughing, without a single scratch."

"The only persons near, besides those interested in the demonstration, were two women, who screamed when they saw the man hit. Their surprise when they saw him released from the automatic fender and laughing at the incident may be imagined."

"DEAD" WOMAN IS REVIVED

Mabel Allen, Who Disappeared at the World's Fair in Chicago, is Now an Heiress.

Boston.—Miss Mabel E. Allen of Brooklyn, who has been legally dead for more than seventeen years, was restored to life by the law in the probate court and incidentally came into some property.

In 1895, when the courts attempted to divide the award of the French spoliation claims allowed to the descendants of Jonathan Merry, an old-time Boston merchant, relatives of Miss Allen declared she had not been seen since the world's fair at Chicago, when she was in the last stages of consumption. The woman was accordingly declared legally dead.

Miss Allen later, accidentally learned of the situation and sought her share of the award. Today the decree of 1895 was revoked and she will get about \$2,000.

FORM BIRD BANDING SOCIETY

American Association Plans to Determine Where and How Far They Fly.

New York.—The American Bird Banding association has just been organized here for the purpose of tracing identification bands on wild birds. This is said to be the only practical and reliable method by which ornithologists can study bird movements and tell where and how far they fly.

In the majority of the cases aluminum bands will be placed on legs of young birds unable to fly found in nests. The bands will not injure or impede the birds' progress. On each band will be the words "Notify American museum, New York."

OUR BASEBALL TEAM IS GROWING STRONGER

The Elks base ball uniforms have arrived and the following men were given uniforms: Clyde Kiser, Donaghey, Alderson, Chauncey, Scott, Dougherty, Stewart, Taylor, Simpson, West, Bobbitt and Sweatt. These men are the best players at present but as the season in Ada does not open until April 1st when we meet the Normal aggregation, there may be several changes.

Haney if he continues to improve as he has for the past few days as a first baseman, will make Scott a strong competitor. The outfielders, West and Simpson, are both playing big league ball and it will take excellent men to get their positions. Right field is yet an unsettled position and a good man is wanted. The infield, with the exception of first base, is settled. Dougherty, Stewart and Taylor are playing great ball and do not believe the man has yet reported that can surpass any one of the three.

Pitching staff is yet very weak. Alderson, Chauncey and Donaghey were given uniforms, but unless they hustle Curtis Hall will be one of the trio. Hall has good curves and control. Donaghey is showing up well but Alderson and Chauncey are yet unable to locate the plate.

Practice every afternoon from 3 o'clock until 6:30. Every ball player is wanted. Come out and watch us play, if you are not a ball player.

AT ONCE! CLOGGED NOSTRILS OPEN HEAD COLDS AND CATARRH VANISH

Breathe Freely! Clears Stuffed-up, Inflamed Nose and Head and Stops Catarrhal Discharge. Cures Dull Headache.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils;

penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight truggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold with it's running nose, foul mucous dropping into the throat and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.
